

## About CWPRS

The Central Water and Power Research Station (CWPRS), Pune, was established in 1916 by the then Bombay Presidency as a "Special Irrigation District".

With the dawn of independence and the launching of planned development of the nation's water resources, CWPRS became the principal central agency to cater to the R&D needs of projects in water and energy resources development and water-borne transport.

Today, CWPRS, a part of the Union Ministry of Jal Shakti, Department of Water Resources, River Development and Ganga Rejuvenation, is one of the foremost organizations in the world in the field of hydraulics and allied research. CWPRS provides specialized services through physical and mathematical model studies in river training and flood control, hydraulic structures, ports and harbours, coastal protection, geotechnical engineering, construction materials, instrumentation, environmental studies, and earth sciences.

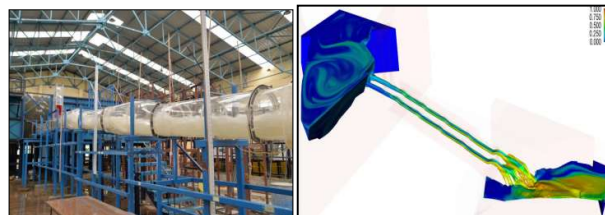

For more details about CWPRS, please visit [www.cwprs.gov.in](http://www.cwprs.gov.in)

## Brief about Workshop

The contribution of women is fundamental in equitable water management and conservation. The workshop aims to discuss various technical challenges in water sector and encourage women in STEM to participate actively in sustainable water management

The workshop is designed with a series of expert lectures and interactive sessions. Additionally, networking opportunities will allow participants to

connect with like-minded women in STEM, fostering collaboration and exchange of diverse perspectives to drive effective and sustainable solutions for water resource conservation. The session would also include demonstrations of physical models and facilities of CWPRS, which stands as a testament to its significant contributions to national water resource initiatives.

## Venue and Date

The technical workshop will be held between 0930 hrs to 1700 hrs on 26th November 2024 at Central Water & Power Research Station (CWPRS), Auditorium.

## Registration & Participation

The registration fee for this workshop is **NIL**. Women in STEM including working professionals from Central and State organizations, Academicians and Students, and NGOs are invited to participate in the workshop.

The last date for the registration of candidates is 20<sup>th</sup> November 2024. The detailed schedule of the program would be sent only to the registered participants.
